

3.g.i: Integration of Palliative Care into the PCMH Model

Project Champion- TBD
Project Manager- TBD

Goal: Increasing access to palliative care programs for persons with serious illnesses and those at end of life can help ensure care and end of life planning needs are understood, addressed and met prior to decisions to seek further aggressive care or enter hospice.

Project Description: Develop palliative care services within primary care settings; partner with community and provider resources including hospice to bring the palliative care supports and services into the practice; engage staff in trainings to increase role-appropriate competence in palliative care skills.

Counting Method #3: A count of patients that meet the criteria over a 1 yr period. Duplicate counts ARE NOT allowed. The count is NOT ADDITIVE across yrs.

Actively Engaged	Data Source	Q&A What is a valid count
The number of participating patients receiving palliative care procedures at participating sites, as determined by the adopted clinical guidelines.	Own registry	Q. What constitutes palliative care procedures? Must it be the full host of procedures described by the "Conversation Ready" model or can it be partial?

DSRIP Performance Metrics - Domain 3G: Palliative Care					
Name (Measure)	Measure Steward	Data Source	DY 2-3	DY 4-5	
Risk-Adjusted percentage of members who remained stable or demonstrated improvement in pain.	NYS	NYS DOH	P4R	P4P	
Risk-Adjusted percentage of members who had severe or more intense daily pain ±	NYS	NYS DOH	P4R	P4P	
Risk-adjusted percentage of members whose pain was not controlled ±	NYS	NYS DOH	P4R	P4P	
Advanced Directives – Talked about Appointing for Health Decisions	NYS	NYS DOH	P4R	P4P	
Depressive feelings - percentage of members who experienced some depression feeling ±	NYS	NYS DOH	P4R	P4P
