

Behavioral Health Workforce Webinar Series

Four-part Webinar training series on Recruitment and Retention strategies and best practices for Behavioral Health Practitioners.

The *final* webinar in this series will be:

Addressing the Opioid Epidemic with Medically-Assisted Treatment

This webinar will feature Dr. Thomas Portuese, MD, a physician at Hudson Headwaters Health Network, speaking on his experience implementing Medically-Assisted Treatment in a primary care setting in the local region. He will discuss how and why the practice entered this realm of treatment, challenges and successes with implementation, and plans for the future. Christopher Barrick, PhD will also present on who is eligible to implement MAT in practice, what is involved in waiver training, and how to obtain waiver training locally.

Target Audience: Physicians, Nurse Practitioners, Physician Assistants, Administrators

February 12, 2019
1:00pm - 2:00pm

Meeting ID: 374-990-905

This activity has been planned and implemented in accordance with the accreditation requirements and Policies of the Medical Society of the State of New York (MSSNY) through the joint providership of Champlain Valley Physicians Hospital and Adirondack Health Institute. Champlain Valley Physicians Hospital is accredited by MSSNY to provide continuing medical education for physicians.

Champlain Valley Physicians Hospital designates this webinar for a maximum of 1 AMA PRA Category Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Presented by:

Thomas Portuese, MD

Hudson Headwaters Health Network

Christopher Barrick, PhD

University at Buffalo

Rebecca Evansky

Adirondack Health Institute

Learning Objectives:

- Recognize the benefits to implementing Medically-Assisted Treatment in your practice/community.
- Identify the challenges in working with the addicted population.
- Distinguish the harm reduction model from other treatment approaches as it relates to opioid abuse treatment.
- Identify how to obtain Medically-Assisted Treatment waiver training.
