The Adirondack Health Institute and Fort Drum Regional Health Planning Organization are excited to offer a one-week virtual learning symposium for 2021, combining the state's premier telehealth conference brought to you by the North Country Telehealth Partnership, with the AHI Leadership Summit.

This event brings together leaders from New York's North Country and beyond and is an opportunity to learn from experts on both telehealth, population health, and advancing whole-person care.

We are seeking proposals in the following topic areas. As our region and beyond moves toward a post-pandemic world, we want to highlight presentations that align with the conference theme of rebuilding and renewal:

- Sustainable Telehealth Programs, Tactics, and Techniques in a Post-Pandemic World
- Cross Sector Collaboration Improving Social Determinants of Health in Rural Regions
- Planning for a Post-Pandemic World in Health Care Systems and Facilities
- Stories from the Frontlines: Innovative Ways to Reach Communities
- Leadership Strategies for Employee Wellness and Workplace Retention During and Post COVID-19

PLEASE IDENTIFY WHICH TOPIC AREA YOUR PROPOSAL WILL FALL UNDER:
