

POLICY AND PROCEDURE

Title: Health Home Qualifying Criteria

Department: Health Home

Population: Health Home Serving Adults and Children

Effective Date: 12/5/2016

Review/Revised Date: 12/10/2019; 11/18/2020; 12/10/2020, 11/18/2021;
1/1/2022

Purpose of Policy

To define and put parameters around the qualifying criteria for children and adults enrolled in the Health Home.

Scope

1. This policy must be distributed to all AHI Health Home Program staff and all subcontracting Health Home Service Providers.
2. All recipients of this policy must acknowledge their receipt and understanding of the policy by referring any questions or problems with the policy within ten days of the issue date to the AHI Health Home program.
3. All questions regarding this policy or its implementation may be directed to the Director of Care Management and Health Home.

Statement of Policy

AHI shall develop, disseminate, and review at least annually a Health Home Qualifying Criteria Policy that addresses purpose, scope, roles and responsibilities, management commitment, coordination among organization entities, and compliance. AHI shall formalize documented procedures to facilitate the implementation of the Health Home Qualifying Criteria Policy.

Definitions

Health Home Service Provider: an organization that has a fully executed contract (the “Health Home Services Provider Agreement”) with the Adirondack Health Institute to provide health home outreach and/or care management services.

Health Home Candidate: a person who is potentially eligible to become a Health Home Enrollee and is assigned to AHI by an MCO, by NYSDOH, or is referred by an organization or individual.

Health Home Enrollee: a person who meets the eligibility criteria for Health Home and has agreed to enroll and participate in the program.

POLICY AND PROCEDURE

Assignment: the process by which a Health Home Candidate is assigned to an AHI Health Home Services Provider.

Care Management Record System: a structured information system, maintained by the Adirondack Health Institute Health Home (AHIHH), and made available for Health Home Service Providers and Health Home Network Partners to utilize, as applicable and appropriate to their role in the Health Home.

Core Health Home Services: The list of five (5) approved categories of services for which a Health Home Care Management Agency can be paid, as defined by the New York State Department of Health:

- Comprehensive Care Management
- Care Coordination & Health Promotion
- Comprehensive Transitional Care
- Member & Family Support
- Referral and Community & Social Support Services

Note: the sixth category of Core Health Home Services, “The use of HIT [Health Information Technology] to link services, as feasible and appropriate,” is NOT considered a billable activity.

NYSDOH: New York State Department of Health

Workforce member: means Employees, board members, volunteers, interns, independent contractors, vendors, and other persons whose conduct, in the performance of work for a covered entity, is under the direct control of such entity, whether or not they are paid by the covered entity. This includes full and part time employees, affiliates, associates, volunteers, and staff from third party entities who provide service to the covered entity.

Children’s HCBS Waiver: In order to receive Home and Community Based Services (HCBS) through the Children’s Waiver the Health Home Care Manager does not have to prove Health Home eligibility if they have an approved Level of Care Determination and will pursue HCBS. If a youth no longer meets Level of Care or chooses not to pursue HCBS and would like to remain in Health Home Care Management, the HHCM will need to collect Health Home eligibility documentation.

SED: Severe Emotional Disturbance is defined as a child or adolescent (under age 21) that has a designated mental illness diagnosis in the following list of Diagnostic and Statistical Manual (DSM) categories as defined by the most recent version of the DSM **and** has experienced at least one of the functional limitations due to emotional disturbance over the past 12 months.

- Schizophrenia Spectrum and Other Psychotic Disorders
- Bipolar and Related Disorders
- Depressive Disorders

Adirondack Health Institute

◊ Lead ◊ Empower ◊ Innovate

POLICY AND PROCEDURE

- Anxiety Disorders
- Obsessive-Compulsive and related Disorders
- Trauma and Stressor Related Disorders
- Dissociative Disorders
- Somatic Symptom and Related Disorders
- Feeding and Eating Disorders
- Gender Dysphoria
- Disruptive, Impulsive-Control, and Conduct Disorders
- Personality Disorders
- Paraphilic Disorders
- Elimination Disorders
- Sleep Wake Disorders
- Sexual Dysfunctions
- Medication Induced Movement Disorders
- Tic Disorder
- ADHD

** Any diagnosis in these categories can be used when evaluating a child for SED. However, an additional diagnosis that is secondary to another medical condition is excluded.

Functional Limitations Requirements for SED Definition of Health Home:

- Ability to care for self (e.g. personal hygiene; obtaining and eating food; dressing; avoiding injuries); or
- Family life (e.g. capacity to live in a family or family like environment; relationships with parents or substitute parents, siblings and other relatives; behavior in family setting); or
- Social relationships (e.g. establishing and maintaining friendships; interpersonal interactions with peers, neighbors and other adults; social skills; compliance with social norms; play and appropriate use of leisure time); or
- Self-direction/self-control (e.g. ability to sustain focused attention for a long enough period to permit completion of age-appropriate tasks; behavioral self-control; appropriate judgment and value systems; decision making ability); or
- Ability to learn (e.g. school achievement and attendance; receptive and expressive language; relationships with teachers; behavior in school).

SMI: Serious Mental Illness is considered when the individual is 18 years of age or older and currently meets the criteria for a DSM psychiatric diagnosis other than alcohol or drug disorders, organic brain syndromes, developmental disabilities or social conditions.

- Anxiety Disorders – Generalized Anxiety Disorder
- Avoidant Personality Disorders

Adirondack Health Institute

◊ Lead ◊ Empower ◊ Innovate

POLICY AND PROCEDURE

- Bipolar I and II Disorder
- Borderline Personality Disorders
- Cyclothymic Disorder
- Delusional Disorder
- Dissociative Identity Disorder
- Dysthymic Disorder
- Histrionic Personality Disorder
- Major Depressive Disorder
- Mood Disorder
- Narcissistic Personality Disorder
- Obsessive Compulsive Disorder
- Panic Disorder with or without Agoraphobia
- Paranoid Personality Disorder
- Personality Disorder
- Posttraumatic Stress Disorder
- Psychotic Disorder
- Schizophrenia – Disorganized Type – Catatonic Type – Paranoid Type – Residual Type – Undifferentiated Type
- Schizoaffective Disorder
- Schizoid Personality Disorder
- Schizotypal Personality Disorder

Any one of these conditions will qualify a member for Health Home if the severity and duration of the mental illness results in a substantial functional disability

Functional Limitations Requirements for SMI Definition of Health Home:

- Marked difficulties in self-care such as (e.g. personal hygiene, diet, clothing, avoiding injury, securing health care, or complying with medical advice); or
- Marked restrictions of activities of daily living such as maintaining a residence, getting and maintaining a job, attending school, using transportation, day to day money management, or accessing community service; or
- Marked difficulties in maintaining social functioning such as establishing and maintaining social relationship, interpersonal interaction with primary partners, children and other family members, friends, or neighbors, social skills, compliance with social norms, or appropriate use of leisure time; or
- Frequent deficiencies of concentration, persistence, or pace, resulting in failure to complete tasks in a timely manner in work, home, or school setting. Individuals may exhibit limitations in these areas when they repeatedly are unable to complete simple tasks within an established time period, make frequent errors in task, or require assistance in the completion of tasks.

Adirondack Health Institute

POLICY AND PROCEDURE

Background

The Health Home Qualifying Criteria Program Policy at AHI is intended to facilitate the effective implementation of the processes necessary to meet the Health Home Program standards and requirements as stipulated by the NYS DOH, federal regulations, and best practices. This policy directs that AHI meet these requirements.

POLICY

It is the policy of the Adirondack Health Institute Health Home (AHIHH) to ensure that individuals who are enrolled in Health Home Care Management meet the eligibility and appropriateness criteria for the program.

QUALIFYING CRITERIA FOR HEALTH HOME ENROLLMENT

All the below conditions must be met for an individual to be enrolled in Health Home Care Management

1. Active Medicaid
2. Condition criteria:
Two chronic conditions (e.g., mental health condition, substance use disorder, asthma, diabetes, heart disease, BMI over 25 [adults], BMI in 85th percentile or higher [children], or other chronic conditions),
OR
HIV/AIDS
OR
One serious mental illness [adults]/ severe emotional disturbance [children]
OR
Complex trauma [children]*

*Please see the appendices for more specifics around defining trauma and assessing for trauma

3. The person has significant behavioral, medical, or social risk factors which can be addressed through care management and without care management may lead to adverse events. Such risk factors include but are not limited to:

Reference Guide – Examples of Determinants of Risk	
Determinants of medical, behavioral, and/or social risk can include:	Documentation Guidance and Examples:
Probable risk for adverse events (e.g., death, disability, inpatient or nursing home admission, mandated preventive services, or out of home placement)	<ul style="list-style-type: none"> • Use various Quality flags in PSYCKES, such as “Preventable admissions for asthma” “Preventable admissions for Diabetes”, etc. • Anyone with a HH+ flag in PSYCKES at the time of enrollment • Anyone with a POP flag in PSYCKES at the time of enrollment

Adirondack Health Institute

Lead Empower Innovate

POLICY AND PROCEDURE

	<ul style="list-style-type: none"> • Anyone with an H-code in EMEDNY at the time of enrollment (eligible or enrolled) • Direct referral from an inpatient medical, psych, or detox admission • Direct referral from ER also possible if member is a frequent flyer (this could be captured as a PSYCKES category) • Direct referral from APS, CPS, or preventive program • Direct referral from MCO or medical provider
<p>Lack of or inadequate social/family/housing support, or serious disruptions in family relationships; needs benefits; nutritional insufficiency</p>	<ul style="list-style-type: none"> • Meeting one of the HUD definitions for homelessness (HUD 1, 2 and 4 housing) • Lack of social supports as evidenced by fewer than 2 people identified as a support by the member, change in guardianship • The institutionalization or nursing home placement of primary support member • Needs assistance applying for/accessing benefits such as SNAP, SSI, etc. • Unable to access food due to financial limitations or ability to shop or access food site, dietary restrictions, etc. • Intimate Partner Violence
<p>Lack of or inadequate connectivity with healthcare system</p>	<ul style="list-style-type: none"> • Individual does not have healthcare connectivity or utilization e.g., does not have a PCP or specialist to treat a chronic condition, or has not seen their provider in the last year. • Individual is unable to appropriately navigate the health care system for the treatment or care of the diagnosed or undiagnosed physical or behavioral health condition. • Potentially preventable utilization based on identified flags in the RHIO, from the Plan, or in PSYCKES (such as 2 or 3+ ED visits in the past year, 1 BH or substance use inpatient visit in the past year, etc.)
<p>Non-adherence to treatments or medication(s) or difficulty managing medications (define source e.g. self-reported or other source with knowledge)</p>	<ul style="list-style-type: none"> • Identify WHICH medication(s) and/or treatment(s) are involved per individual or referral source. • Per PSYCKES flag (e.g., Adherence to Mood Stabilizers, Antipsychotics, and Antidepressants; No Diabetes Monitoring)
<p>Deficits in activities of daily living, learning or cognition issue (define source e.g., self-reported, reported by other, observed by HHCM, etc.)</p> <p>(This should not be the only risk factor)</p>	<ul style="list-style-type: none"> • Instrumental Activities of Daily Living (IADLs) include transportation, shopping, managing finances, meal preparation, housecleaning, home maintenance, communications, and managing medications¹ • Deficits can be caused by medication side effects, social isolation, home environment, cognitive or mental decline (e.g. dementia), aging, Musculoskeletal, neurological, circulatory, sensory conditions, lack of Durable Medical Equipment (DME), hospitalization, or acute illnesses.
<p>Recent release from incarceration, detention,</p>	<ul style="list-style-type: none"> • Released within the last 90 days

Adirondack Health Institute

Lead Empower Innovate

POLICY AND PROCEDURE

psychiatric hospitalization or placement; other justice referrals for those not incarcerated	<ul style="list-style-type: none"> Identify name of institution, approximate date of release, or name of "other justice referral for those not incarcerated"
--	---

4. Persons with developmental disabilities receiving case management services from OPWDD, some persons in long-term care settings, and several other populations are restricted from receiving Health Home Care Management. Please see the Restriction Exception (R/E) codes on the NYSDOH Health Home’s website for additional information

As of 7/1/18, Major Category of Developmental Disabilities was added to the chronic conditions list which includes the following:

- Intellectual Disability
- Cerebral Palsy
- Epilepsy
- Neurological Impairment
- Familial Dysautonomia
- Prader-Willi Syndrome
- Autism

If an individual does not qualify or chooses **not to participate in a CCO/HH** and has one of the diagnoses in the Developmental Disabilities Major Category and one or more of the other diagnoses included on the Health Home Chronic Conditions List, the individual may be eligible for enrollment in a Health Home Serving Children. Specifically, the individual’s developmental disability diagnosis must be in the Developmental Disabilities Category, originate before the age of twenty-two and be expected to continue indefinitely to qualify as a diagnosis in the Developmental Disabilities Category.

5. Substance Use Disorders (SUDs) are considered Chronic Conditions however alone are not a qualifying condition. The Health Home Candidate must have another chronic condition.

VERIFYING ELIGIBILITY/APPROPRIATENESS FOR HEALTH HOME ENROLLMENT

- Active Medicaid can be verified via MAPP (Medicaid Analytics Performance Portal) or ePACES
- In cases of Complex Trauma, for the Health Home Serving Children’s Population, please see the appendices for additional guidance.
- Documentation of SED Eligibility must include a diagnosis from the DSM by a licensed Practitioner who can diagnose *and* report that the child meets the functional limitation requirements. The report or attestation must be within 12 months of the referral.

Adirondack Health Institute

◊ Lead ◊ Empower ◊ Innovate

POLICY AND PROCEDURE

- To be considered an individual with a serious mental illness, a person must have at least one of the diagnoses listed on pages three and four, and at least one of the functional impairments listed on page four.
- HIV/AIDS documentation of eligibility must include a Comprehensive Medical/Annual Physical within 12 months of the referral that includes HIV status and viral load.
- Health Home Service Providers are responsible for confirming Medicaid Coverage and being aware of the Health Home Enrollees Medicaid Expiration Date.
- Health Home eligibility documentation must be uploaded into the Care Management record.
- Once Medicaid eligibility is confirmed, and the Health Home service provider obtains proof of Health Home qualifying conditions, the Health Home Service Provider is responsible for completing the Eligibility Screen Assessment in Care Management Record System.

VERIFYING ONGOING ELIGIBILITY/APPROPRIATENESS FOR HEALTH HOME

- Active Medicaid is a requirement for ongoing Health Home Care Management
- For members that lose Medicaid eligibility, when appropriate, HHSP will assist the member in re-establishing Medicaid.
- Eligibility/appropriateness shall be reassessed a minimum of yearly and documented in the member's record. HHSP's are responsible for confirming Medicaid coverage monthly for billing purposes.
- If a member is found to no longer be appropriate for Health Home Care Management, the Disenrollment Policy and Procedure shall be utilized. If it is determined that the member no meets eligibility after enrollment, the Health Home Service Provider can refer to other Case Management services or SPOA based on needs of the family and consent.

Adirondack Health Institute

◊ Lead ◊ Empower ◊ Innovate

POLICY AND PROCEDURE

TRAINING

- AHIHH will provide training related to all Health Home policies. Trainings may be formal and informal and requested on an as needed basis by forwarding questions related to this or any policy to healthhome@ahihealth.org.

QUALITY / PERFORMANCE IMPROVEMENT

- AHI Health Home will review a selection of cases from each HHSP's member attributions. Each case will be assessed for proper Health Home Eligibility Documentation and Health Home appropriateness. HHSP's will be notified of any record found to not have adequate eligibility documentation on file and will be expected to resolve the error promptly. Failure to have proper Health Home eligibility documentation in the Care Management Record System may result in voided billing.

DISTRIBUTION

- This policy must be distributed to all AHI Health Home Program staff and all subcontracting Health Home Service Providers.
- All recipients of this policy must acknowledge their receipt and understanding of the policy by referring any questions or problems with the policy within ten days of the issue date to the Adirondack Health Institute's Health Home program.
- All questions regarding this policy or its implementation may be directed to the Director of Health Home and Care Management by emailing healthhome@ahihealth.org.

POLICY AND PROCEDURE

APPENDIX A: DEFINITION OF COMPLEX TRAUMA

The term complex trauma incorporates at least:

i. Infants/children/or adolescents' exposure to multiple traumatic events, often of an invasive, interpersonal nature

and

ii. the wide-ranging, long-term impact of this exposure.

Nature of the traumatic events:

- i. often is severe and pervasive, such as abuse or profound neglect;
- ii. usually begins early in life;
- iii. can be disruptive of the child's development and the formation of a healthy sense of self (with self-regulatory, executive functioning, self-perceptions, etc.);
- iv. often occur in the context of the child's relationship with a caregiver
- v. can interfere with the child's ability to form a secure attachment bond, which is considered a prerequisite for healthy social-emotional functioning.

Many aspects of a child's healthy physical and mental development rely on this secure attachment, a primary source of safety and stability.

Wide-ranging, long-term adverse effects can include impairments in:

- i. physiological responses and related neurodevelopment,
- ii. emotional responses,
- iii. cognitive processes including the ability to think, learn, and concentrate,
- iv. impulse control and other self-regulating behavior,
- v. self-image,
- vi. relationships with others.

Adirondack Health Institute

POLICY AND PROCEDURE

APPENDIX B: PROCESS FOR ASSESSING TRAUMA IN THE HEALTH HOME

The workflow for this process can be found here:

https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/docs/final_complex_trauma_workflow.pdf

The below are guidelines:

If a Non-licensed professional (or a licensed professional without access to CT Exposure Assessment and Functional Impairment Assessment) identifies a child who may have Complex Trauma, he or she should complete the Complex Trauma Exposure Screen form located here:

https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/docs/final_complex_trauma_exposure_screen.pdf

If positive, a referral is made to a licensed professional to complete the CT Exposure Assessment and [if positive] the Functional Impairment Assessment. All supporting documentation should be sent to the licensed professional at this time.

Complex Trauma Exposure Assessment can be found here:

https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/docs/final_complex_trauma_exposure_assessment.pdf

The Functional Impairment Assessment can include recent and valid assessments, child/ youth interview, collateral sources, or additional assessments using the approved list from NCTSN (**National Child Traumatic Stress Network**), **found here:**

<http://www.nctsn.org/trauma-types/complex-trauma/standardized-measures-assess-complex-trauma>

If functional impairment exists and Health Home Care Management would be an appropriate support for the child, the licensed provider completes the **CT Eligibility Determination form, found here:**

https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/docs/final_complex_trauma_elig_determination.pdf

If a licensed professional believes that a child has experienced Complex Trauma, he or she should complete the CT Exposure Assessment. If positive, he or she should proceed with a Functional Impairment Assessment as specified above. If functional impairment exists the referral should be made to the Health Home.

POLICY AND PROCEDURE

Appendix E: Adirondack Health Institute Health Home Severe Emotional Disturbance (SED) Eligibility Guidance

Severe Emotional Disturbance (SED) is defined as the following for Health Home Serving Children purposes:

1. A child or adolescent (under the age of 21) that has a designated mental illness diagnosis in the Diagnostic and Statistical Manual (DSM) categories below as defined by DOH:

Table with 2 columns listing DSM categories such as Anxiety Disorders, Depressive Disorders, Schizophrenia Spectrum and Other Psychotic Disorders, etc.

AND

2. Has experienced functional limitation(s) due to emotional disturbance over the past 12 months (from the date of assessment) on a continuous or intermittent basis. The functional limitation(s) below must be moderate in at least two areas or severe in at least one of the areas:

- Ability to care for self (e.g. personal hygiene; obtaining and eating food; dressing; avoiding injuries)
Family life (e.g. capacity to live in a family or family like environment; relationships with parents or substitute parents, siblings and other relatives; behavior in family setting)
Social relationships (e.g. establishing and maintaining friendships; interpersonal interactions with peers, neighbors and other adults; social skills; compliance with social norms; play and appropriate use of leisure time)
Self-direction/self-control (e.g. ability to sustain focused attention for long periods of time to permit completion of age-appropriate tasks; behavioral self-control; appropriate judgment and value systems; decision-making ability)
Ability to learn (e.g. school achievement and attendance; receptive and expressive language; relationships with teachers; behavior in school)

Adirondack Health Institute

◊ Lead ◊ Empower ◊ Innovate

POLICY AND PROCEDURE

- Proof of Eligibility Requirements:
To enroll the youth/child into the Health Home program under the single qualifying condition of SED:
- Proof of **both** diagnosis and functional limitation(s) must be obtained from a licensed mental health professional
- If you are unable to obtain proof of functional limitation(s) from a licensed mental health professional, **you can use the mental illness diagnosis as one of two chronic conditions*** instead
- The functional limitation(s) need to be reviewed at least annually with updated proof obtained from a licensed mental health professional stating severity.

The child can enroll into the Health Home with 2 mental illness diagnoses as chronic conditions as well.

At least one of the following required documents is needed to enroll a youth/child into the Health Home program under SED single qualifying condition:

- Comprehensive Mental Health Assessment
- Evaluation must be completed within the past twelve (12) months. Completed by a licensed Medical or Mental Health professional to include valid diagnosis.
- Psychosocial
- Evaluation must be completed within the past (12) months. Completed by a licensed Medical or Mental Health professional to include valid diagnosis.
- Psychiatric Assessment
- Evaluation must be completed within the past (12) months. Completed by a licensed Psychiatrist (MD) or a Licensed Nurse Practitioner to include valid diagnosis.
- AHI HH SED Verification Form
- Form created specifically for licensed professionals to complete and sign to confirm diagnosis and functional limitation(s) resulting in SED determination
- It is recommended to also gather supporting documentation such as a Psychosocial from the licensed professional supporting the information provided but not required

Serious Mental Illness Functionality Assessment

Name: DOB: CIN:

Directions: Please review this form and the information completed for accuracy. Please make all necessary changes you see fit per your professional capacity as Physician or Mental Health Provider.

Primary Diagnosis of patient (DSM V/ ICD 10 code):

Other Diagnosis of patient (DSM V/ ICD 10 code):

Functional Limitations (may be completed by Licensed Professional or Care Manager): For SMI eligibility an adult must have one of the criteria listed below as a result of their qualifying diagnosis:

- i. Ability to care for self (personal hygiene, diet, clothing, avoiding injuries, securing health care, or complying with medical advice)
ii. Restrictions of activities of daily living (maintaining a residence, getting and maintaining a job, attending school, using transportation, day-to-day money management, or accessing community service)
iii. Difficulties in maintaining social functioning (establishing and maintaining social relationships, interpersonal interactions with primary partners, children and other family members, friends, or neighbors, social skills, compliance with social norms, or appropriate use of leisure time)
iv. Deficiencies of concentration, persistence, or pace (resulting in failure to complete tasks in a timely manner in work, home, or school setting. Individuals may exhibit limitations in these areas when they repeatedly are unable to complete simple tasks within an established time period, make frequent errors in task, or require assistance in the completion of tasks)
